December 4, 1985

Mr. Don Villarejo
433 Russell Blvd.
Davis, CA 94617

Dear Don:

I just wanted to express my sincere gratitude for your participation in our workshop to the California bishops. Following the presentation and later that evening, I was able to speak with a number of the bishops. They were unanimous in their appreciation for your comments. They felt that you provided them with many new insights on the situation of small farms and agriculture in general in the State. I'm very confident that your remarks to them will precipitate a more concerted action on their part to impact on agriculture and land related policies in the State.

Aside from my appreciation for your presentation to the bishops, I want to add personally that I really enjoyed getting to meet you. I've heard so much about you and was very impressed by the opportunity to meet you. I look forward to a long and fruitful relationship.

With prayers for your work, I remain

Most sincerely, in the Charity of Christ,

John Graykoski
