THE NAWS AT 10: A RESEARCH SEMINAR

Saturday, October 7, 2000
IGA Conference Room, Shields Library, UCD Campus

The purpose of this seminar is to assess the usefulness of NAWS and other farm labor data for understanding changes in the farm labor market in the 1990s, and to determine the combination of data that is most useful for understanding farm labor in the 21st century. The seminar will include papers that examine NAWS and farm production data as well as health and enforcement data.

If you would like to participate, please contact Philip Martin at: martin@primal.ucdavis.edu
The papers are posted at: http://migration.ucdavis.edu/rmn/cfra.htm
